INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners,
South Central Planning & Development Commission, Inc.,
Thibodaux, Louisiana.

We have audited the accompanying general-purpose financial statements of South Central Planning & Development Commission, Inc. (the Commission) as of and for the year ended June 30, 2000, as listed in the table of contents. These general-purpose financial statements are the responsibility of the Commission's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of South Central Planning & Development Commission, Inc. as of June 30, 2000, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated October 2, 2000 on our consideration of South Central Planning & Development Commission, Inc.'s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements of South Central Planning & Development Commission, Inc. taken as a whole. The accompanying combining and individual fund financial statements and schedule of expenditures of federal awards as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general-purpose financial statements of South Central Planning & Development Commission, Inc. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

Bourgeois Bennett, L.L.C.

Certified Public Accountants.

NOTES TO FINANCIAL STATEMENTS**South Central Planning & Development Commission, Inc.**

June 30, 2000

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the South Central Planning & Development Commission, Inc. (the Commission) conform to generally accepted accounting principles (GAAP) applied to special districts as prescribed by the Governmental Accounting Standards Board (GASB), the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of significant accounting policies:

a) Reporting Entity

The Commission was created under enabling legislation of the State of Louisiana and incorporated under the provisions of Louisiana Revised Statutes 12:201 et. seq., as amended in 1968; provided, however, that its activities shall be consistent with the powers, duties, rights and liabilities as may be deemed necessary or proper to accomplish the purposes of a regional planning or an economic development district and are for charitable, educational and scientific research purposes.

The Commission although governed by a Board of Commissioners who are directly appointed by the governing bodies of the municipalities and parishes of which it serves, is considered a separate governmental entity because it is substantially autonomous. The Commission has no component units and the general-purpose financial statements include all the fund types and account groups of the entity.

b) Fund Accounting

The Commission uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Fund Accounting (Continued)

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Governmental Funds

Governmental Funds are those through which the governmental functions of the Commission are financed. The acquisition, use and balances of the Commission's expendable financial resources and the related liabilities are accounted for through Governmental Funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following are the Governmental Funds of the Commission:

General Fund - The General Fund is the general operating fund of the Commission. It is used to account for all financial resources except those that are required to be accounted for in another fund.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specific purposes.

Account Groups

Account groups are used to establish accounting control and accountability. The Commission's Account Groups are as follows:

General Fixed Assets Account Group - This account group is used to account for fixed assets not accounted for in proprietary or trust funds.

General Long-Term Obligations Account Group - This account group is used to account for general long-term obligations and certain other liabilities that are not specific liabilities of proprietary or trust funds.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c) Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All Governmental Funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Member assessments are recognized as revenues in the period for which they are assessed. Grant and contract revenues are recognized when earned since they are measurable and available. Interest earned and other miscellaneous revenues are recorded as revenues when received in cash by the Commission because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. An exception to this general rule is vacation and sick leave which is recorded in the period in which paid.

d) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

e) Budgets and Budgetary Accounting

The Commission, under the terms of its charter, adopts an annual budget. This budget is for the General Fund and Special Revenue Funds. Special Revenue Funds, which at June 30, 2000 consisted of various government and government agency projects, are budgeted on a project by project basis as funding becomes available. The General Fund and Special Revenue Funds budgets were amended during the year to reflect changes in budgeted revenues, expenditures and operating transfers as dictated by the circumstances.

Budgets for carryover grants and projects, which are to be performed over more than one accounting period, are reflected only to the extent they affect the current period being reported on. Budgeted amounts which are not expended, or obligated through contracts, lapse at year end.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e) Budgets and Budgetary Accounting (Continued)

Comparison of the budgeted and actual amounts as shown in Exhibit C in the accompanying financial report includes the General Fund and all Special Revenue Funds. The budgets are adopted on a basis materially consistent with generally accepted accounting principles.

f) Accounts Receivable

The financial statements of the Commission contain no allowance for uncollectible accounts. Uncollectible amounts due for member assessments, contract revenues and other receivables are recognized as bad debts at the time information becomes available which would indicate the uncollectibility of the particular receivable. These amounts are not considered to be material in relation to the financial position or operations of the funds.

g) Investments

Investments consist of certificates of deposit which are stated at cost and approximates market value.

h) Deferred Revenue

Member dues and restricted contributions for future periods received during the current year are reported as deferred revenues within the General Fund. Member dues and restricted contributions are considered revenues of the period for which assessed or designated by the members. In January, members are assessed dues for the next fiscal year based on a per capita rate, \$.38 for the fiscal year 2001. Also, in January, members are voluntarily assessed the cost to administer the revolving loan program for the calendar year.

The Commission accounts for its revolving loan program in the operating accounts of special revenue funds. The receipts of its grants and subsequent loan collections are recognized as revenue and loans made to beneficiaries of the program are accounted for as expenditures. An asset "economic loans receivable" is offset on the Balance Sheet by "deferred revenue."

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Fixed Assets

Fixed assets used in governmental fund type operations (fixed assets) are accounted for in the General Fixed Assets Account Group, rather than in governmental funds. The Account Group is not a fund. It is concerned only with the measurement of financial position.

It is not involved with the measurement of results of operations. Public domain ("infrastructure") fixed assets consisting of certain improvements other than buildings, including roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems are not capitalized along with other fixed assets. No depreciation has been provided on fixed assets.

All fixed assets are valued at historical cost.

j) Long-Term Obligations

For long-term obligations, only that portion expected to be financed from unexpendable available financial resources is reported as a fund liability of a Governmental Fund. The remaining portion of such obligations is reported in the General Long-Term Obligations Account Group.

k) Vacation and Sick Leave

Accumulated vacation and sick leave is recorded as an expenditure of the period in which paid.

All full-time, permanent employees of the Commission receive two weeks of vacation which accrues at a rate of 3.08 hours per pay period beginning with the first day of full-time, permanent employment. Full-time employees as of June 22, 1995 will receive an additional day of vacation per year of service after five years of continuous employment. Full-time employees hired after June 22, 1995 will receive an additional day of vacation per year of service after ten years of continuous employment. Vacation cannot be used for the first three months of full-time, permanent employment. Employees may carry over a maximum of five working days of vacation from one fiscal year to another. Any time in excess of five days must be approved by the Chief Executive Officer before the end of the fiscal year or will be lost without compensation. Vacation is reimbursed when an employee terminates service with the Commission.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k) Vacation and Sick Leave (Continued)

All full-time, permanent employees of the Commission earn sick leave at the rate of one day per month or 3.69 hours per pay period. No limits on this accrual privilege have been established. Sick leave can be accumulated but does not vest and, therefore, a provision has not been made for sick leave.

The amount of accumulated unpaid vacation at June 30, 2000 is reported in the General Long-Term Obligations Account Group.

l) Fund Equity

Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Designated fund balance represent tentative plans for future use of financial resources.

m) Interfund Transactions

Interfund transactions are reported as transfers. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

n) Indirect Cost Plan

The Commission maintains an indirect cost plan for the allocation of costs that are incurred for a common or joint purpose benefitting more than one cost objective and not readily assignable to the cost objectives specifically benefitted through June 30, 2000. These indirect costs are allocated based on direct salaries incurred by each fund benefitting from the indirect costs.

o) Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments are recorded in the fund general ledgers, is not utilized by the Commission.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

p) Reclassification

During the year, the Commission changed its classification of contracts with other governments from intergovernmental to charges for services. The effect on the financial statements was an increase in charges for services amounting to \$117,683 for the year ended June 30, 2000.

q) Memorandum Only - Total Columns

The total columns on the general-purpose financial statements are captioned "Memorandum Only" because they do not represent consolidated financial information and are presented only to facilitate financial analysis. The columns do not present information that reflects financial position or results of operations in accordance with generally accepted accounting principles. Interfund eliminations have not been made in the aggregation of this data.

Note 2 - DEPOSITS

State statutes authorize the Commission to invest excess funds in obligations of the United States, certificates of deposit of state banks organized under laws of Louisiana and National Banks having their principal office in Louisiana or any other federally insured investment.

State Law requires deposits (cash and certificates of deposit) of all political subdivisions to be fully collateralized at all times. Acceptable collateralization includes FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or with a trust company for the account of the political subdivision.

Cash and deposits are categorized into three categories of credit risk.

Category 1 includes deposits covered by federal depository insurance or by collateral held by the Commission or its agent in the Commission's name.

Category 2 includes deposits covered by collateral held by the pledging financial institution's trust department or its agent in the Commission's name.

Note 2 - DEPOSITS (Continued)

Category 3 includes deposits covered by collateral held by the pledging financial institution or its trust department or agents but not in the Commission's name and deposits which are uninsured or uncollateralized.

The year end bank balances of deposits and the carrying amounts as shown on the combined balance sheet are as follows:

	Bank Balances			
	Category			Book
	1	2	3	Balances
Cash	\$100,000	\$ -	\$129,101	\$227,062
Investments:				
Certificates of deposit	<u>100,000</u>	<u>-</u>	<u>197,207</u>	<u>297,207</u>
Totals	<u>\$200,000</u>	<u>\$ -</u>	<u>\$326,308</u>	<u>\$524,269</u>

At June 30, 2000, cash and certificates of deposit in excess of the FDIC insurance were collateralized by securities held by unaffiliated banks for the account of the Commission. The Governmental Accounting Standards Board (GASB), which promulgates the standards for accounting and financial reporting for state and local governments, considers these securities uncollateralized. Even though the pledged securities are considered uncollateralized under the provisions of GASB Statement 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the depositor that the fiscal agent has failed to pay deposited funds upon demand.

A reconciliation of deposits as shown on the Combined Balance Sheet is as follows:

Cash on hand	\$ 100
Carrying amount of deposits	<u>524,269</u>

Note 6 - LONG-TERM OBLIGATIONS

Long-term obligations at June 30, 2000 consisted of accumulated annual leave (vacation pay) amounts vested with employees.

The following is a summary of changes in the long-term obligations of the Commission:

Long-term obligations, July 1, 1999	\$6,102
Net increase in accumulated unpaid annual leave	<u>284</u>
Long term obligations, June 30, 2000	<u>\$6,386</u>

Funding of accumulated annual leave is to be provided from revenues of various funds at the time paid.

Note 7 - DEFERRED REVENUES

Deferred revenues are reported in the general fund and special revenue funds at June 30, 2000. For the year ended June 30, 2000, the General Fund's deferred revenue activity consisted of the following:

	Member Dues	Loan Administration	Total
Balance July 1, 1999	\$ 124,078	\$ 22,500	\$ 146,578

Note 8 - LEASE COMMITMENTS

On July 1, 1999, the Commission entered into a one year lease agreement for office facilities which expired June 30, 2000. The lease terms provided for monthly rental payments of \$1,600. As of June 30, 2000, office facilities were being leased on a month-to-month basis at \$1,600 per month.

The Commission has entered into a three year operating lease for a vehicle. The lease expires in May 2001 and provides for monthly payments of \$439. Future minimum lease payments under the outstanding lease at June 30, 2000 are as follows:

<u>Year Ended June 30,</u>	<u>Facility Vehicle</u>
2001	<u>\$4,392</u>

Rental expense incurred under leases for the year ended June 30, 2000 was \$24,471.

Note 9 - ECONOMIC DEPENDENCY

The Commission received a majority of its revenue from funds provided by federal/state government grants, local government entities, contracts and member (local governments) dues. *Certain grants, contracts and member dues are required to be appropriated each year by the various levels of government. If significant budget cuts are made at the federal/state and/or local government level, the amount of funds received by the Commission could be reduced significantly and have an adverse impact on its operations.*

Note 10 - EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The following individual funds had actual expenditures exceeding appropriations:

	<u>Budget</u>	<u>Actual</u>	<u>Unfavorable Variance</u>
Nonpoint Source Pollution Implementation Fund	\$15,300	\$15,746	\$(446)
Occupational Safety and Health Administration Grant Fund	\$29,050	\$29,174	\$(124)

The expenditures in excess of appropriations were funded by excess revenues or General Fund transfers.

Note 11 - RISK MANAGEMENT

The Commission is exposed to various risks of loss related to workers' compensation; torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Commission carries commercial insurance. No settlements were made during the year that exceeded the Commission's insurance coverage.

Note 12 - COMPENSATION OF COMMISSIONERS

Commissioners for South Central Planning & Development Commission, Inc. received no compensation during the year ended June 30, 2000.

SPECIAL REPORTS OF CERTIFIED PUBLIC ACCOUNTANTS

Bourgeois Bennett

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER
FINANCIAL REPORTING BASED ON AN AUDIT OF GENERAL-
PURPOSE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners,
South Central Planning & Development Commission, Inc.,
Thibodaux, Louisiana.

We have audited the general-purpose financial statements of the South Central Planning & Development Commission, Inc., (the Commission), as of and for the year ended June 30, 2000, and have issued our report thereon dated October 2, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Commission's general-purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Commission's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general-purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be a material weakness. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low

level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information and use of the Board of Commissioners, management, the Legislative Auditor for the State of Louisiana and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE
TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Board of Commissioners,
South Central Planning & Development Commission, Inc.,
Thibodaux, Louisiana.

Compliance

We have audited the compliance of the South Central Planning & Development Commission, Inc., (the Commission), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to its major federal program for the year ended June 30, 2000. The Commission's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the Commission's management. Our responsibility is to express an opinion on the Commission's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Commission's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Commission's compliance with those requirements.

In our opinion, the Commission complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2000.

Internal Control Over Compliance

The management of the Commission is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Commission's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Commissioners, management, Legislative Auditor for the State of Louisiana and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
